Summary

AI/ML undergraduate skilled in problem-solving, analytical thinking, and technical communication, software development, deep learning, and full stack technologies with experience building real-world AI and data-driven applications.

Technical Skills

Programming Languages	Java, Python
Frameworks & Libraries	TensorFlow, Scikit-learn, Flask, JavaScript, React.js, Node.js, Express.js
Cloud & Deployment	AWS, Vercel, Hugging Face, Render
Databases	MongoDB, SQL, PostgreSQL
Developer Tools	Antigravity, Cursor, Claude, Gemini CLI, ChatGPT, GitHub Copilot
Core Concepts	Machine Learning, Deep Learning, LLMs, REST APIs, Data Visualization

Education

Vellore Institute of Technology B.Tech in Computer Science & Engineering (AI/ML)	2023 – Present CGPA: 8.98
Holy Public School, Agra Higher Secondary Education	2021 – 2022 83%

Projects

Code Reviewer AI—React, Node.js, Express, Gemini API https://github.com/Yash-2808/Code-Reviewer-AI	March 2026 – May 2026
- Developed a full-stack AI-powered code analysis platform enabling code conversion, intelligent debugging, and automated code quality evaluation using the Google Gemini API. - Designed REST APIs with Express and integrated a React-based editor to provide an interactive and seamless experience.	
DriverGuard AI – Driver Distraction Detection System github.com/Yash-2808/Distracted-Driver-Detection-using-deep-learning	Dec 2025 – Jan 2026
- Developed a real-time driver distraction detection system using TensorFlow and the V7 Plus model. - Achieved 96% accuracy across 10 driver behavior categories using transfer learning and AdamW optimization. - Built a Flask-based web application for real-time prediction and driver monitoring.	
Chemical Equipment Parameter Visualizer github.com/Yash-2808/Chemical-Equipment-Parameter-Visualizer	Sep 2025 – Nov 2025
- Developed a hybrid web and desktop application for CSV-based chemical equipment visualization. - Built Django REST APIs, React dashboards, Chart.js and PyQt5 visualization tools.	

Experience

Web Development Intern – Ramaya Group Pvt. Ltd	Oct 2025 – Jan 2026
- Designated on internal website development projects under professional supervision - Developed responsive web pages and improved website functionality through frontend enhancements. - Collaborated with teams to deliver projects within deadlines following industry practices.	
Core Member – UX Club, VIT Bhopal	Nov 2025 – Jan 2026
- Collaborated closely with designers and organizers to research, plan, and create meaningful content for workshops, events, and digital platforms, ensuring clarity, accessibility, and consistency with UX principles. - Created user-focused content for workshops, events, and digital platforms.	

Certifications

Introduction to Agentic AI , Cognizant SkillSpring	May 2026 – Jul 2026
Applied Machine Learning in Python , University of Michigan	Nov 2025 – Jan 2026
AWS Technical Essentials , AWS Training & Certification	Sept 2025
Cloud Computing (Elite Topper, 82%) , NPTEL IIT Kharagpur	Jan 2025 – Apr 2025

Achievements

- Achieved 96% model accuracy in DriverGuard AI.
- Participated in Health4Hackathon and HP Power Lab Hackathon.
- Ranked among Elite performers in NPTEL Introduction to IoT certification by IIT Kharagpur with an 85% score.
